Purchase

As an alternative to the National Library Service players provided on free LOAN there are third-party devices that can be purchased.

These players require an encryption key to play the books. The key is supplied by the manufacturer to you through email, either after setting up a **new BARD account** or by adding a player to an **existing BARD account**.

This is a list of compatible players and contact information for ordering them. NOTE: The mention of a product or service here does not constitute endorsement by the library. Our intent is to increase an awareness of programs and items which may be helpful to our patrons.
