

*Arkansas State Library is providing Browsealoud to all public libraries in the state free of charge, enabling libraries to provide services and resources to even more patrons*

ARKANSAS  
STATE LIBRARY

Library**Market**  
*designing a revolution*

## → FREE OF CHARGE

People with access challenges—including vision impairment, attention and focus disorders, dyslexia, and language barriers—deserve an equal opportunity to use library resources. With Browsealoud, you'll have a seamlessly integrated tool for engaging these users.

To enable libraries to provide this accessibility tool to their patrons, Arkansas State Library is making Browsealoud available to every public library in the state free of charge. Registering is easy and will allow you to broaden your reach through both your library website and public access computers.

By signing up for Browsealoud through Library Market, you'll receive:

### WEBSITE INSTALL </>

Copy-and-paste Javascript code to install the Browsealoud toolbar on every page in your domain. Includes compact version of Browsealoud offering screen reading and translation tools to mobile users.

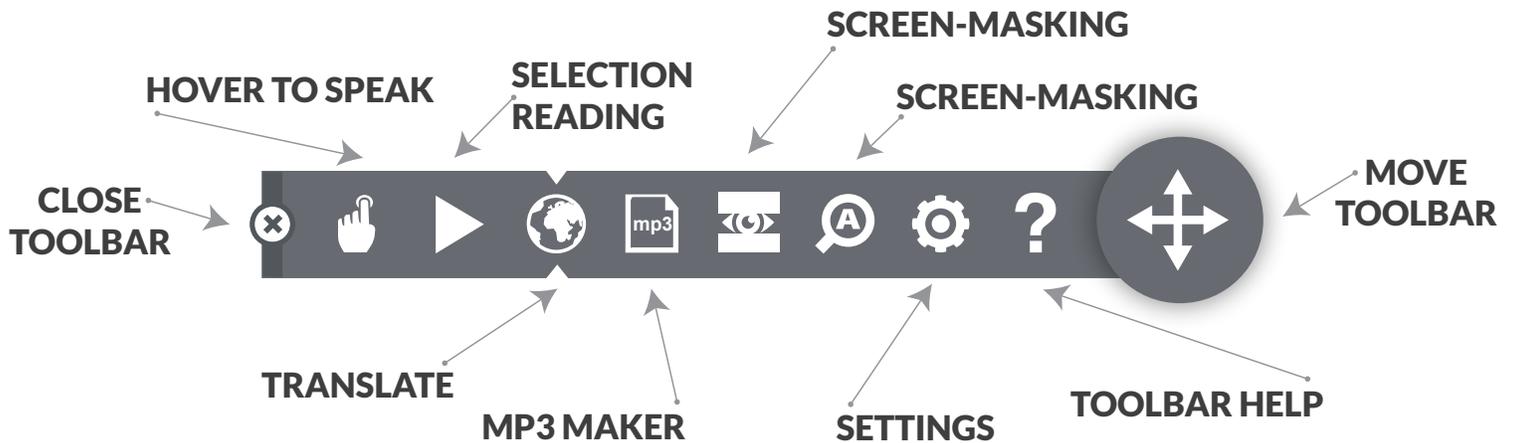

### GOOGLE CHROME

Place Browsealoud's Google Chrome extension on all of your public computers, allowing patrons with access challenges to transform their online experience on any computer in the library.

*Installation is easy!* **Contact Donovan today at [donovan@library.arkansas.gov](mailto:donovan@library.arkansas.gov) to get started.**

## → INTUITIVE TOOLBAR FEATURES

## → BROADEN YOUR REACH

### ACCESSIBILITY TOOLS

Browsealoud provides your library website and all public access computers with easy-to-use tools for those with accessibility challenges.

### SCREEN READING

Ideal for those with vision and literacy challenges, Browsealoud reads selected page text or wherever the user points the mouse.

### PAGE TRANSLATOR

For those facing language barriers, Browsealoud offers professional level translation in 99 languages, 40 of which are compatible with screen reading.

### SCREEN MASKING

The screen mask allows users to target a small area on the screen, minimizing distractions for those with attention or focus challenges.

### MP3 GENERATOR

With the click of a button, Browsealoud generates an audio file of any page content for easy offline listening.

### PDF VIEWER

Browsealoud makes documents accessible with a viewer that provides the same features for online PDF files.
